

1.1 Getting Started - Registering with Kete

Register:	Description: In order to add or update things in Kete, you need to Register - this only needs to be done once .
------------------	--

Before you start on the computer, there is some preparation:

- 1 To register with Kete you must have an **email address** - if you don't already have one, you can get a free one from the Internet - e.g. go to www.hotmail.com and click on Sign Up.
- 2 Decide on a **login name** and a **password** - you should keep this secret - but don't forget it! A good password would be 6-8 characters long and include a mixture of letters and numbers.

User Name:	Clue to password:
------------	-------------------

- 3 **Optional** - decide on:
 - a **User Name** - this is a screen name - such as your name or the name of your group e.g. John Smith, ABC Club, XYZ Ltd. It can contain Capital Letters and spaces.
 - whether you want your **email visible** to people on Kete.
 - a list of your **Interests** to show on Kete.

Now you are ready to get on the **Internet** and Register:

- 4 Open your **Internet Browser** (e.g. Internet Explorer or Mozilla Firefox)
- 5 In the URL (address line) type in the address for Kete:

horowhenua.kete.net.nz (this needs to be exactly right so please double-check your typing!)

This takes you to the homepage of Kete:

- 6 Click on the **Register** button at the top-right of your screen:

Continued overleaf

⑦ Fill in the fields in the
Registration screen:

Your **Login** must be unique in Kete
(and Kete will check this).

Your **email** address will be used to
send you a confirmation message by
email.

Your secret **password**.

As a check **retype** your password.

Your **User Name** (optional).

Click in the box if you want your
email to be **visible** to other Kete users
(optional).

Type in your list of **Interests**
(also optional).

Type in the **Security Code** shown in
the greyed-out box exactly as it is
shown - i.e. capitals and lower case
are important.

Tick the box that acknowledges that
you have read and accept the Terms
and Conditions etc. for Kete.

Then click on the **Sign up** button.

The screenshot shows the Kete Registration form with the following fields and values:

- Login:** jsmith
- Email:** jsmith254@hotmail.com
- Password:** *****
- Confirm Password:** *****
- User name:** John Smith
- email visible:**
- Interests:** Genealogy, Photography
- Security Code:** YP5SQS (with a greyed-out box containing the same code for reference)
- Agreement:** I agree that I have read and accept the [Terms and conditions](#)

Annotations with arrows point from the text on the left to each of these fields. A 'Sign up' button is located at the bottom of the form.

Should you get an **error message** - just check out what it says then:

- **Change** the item(s) in error.
- **Retype** any fields that have been cleared (e.g. User name, email visible and Interests).
- Type in the **new Security Code** the system has generated.
- Re-check the **I agree ... box**.
- And click on the **Sign Up** button again.

Registration

1 error prohibited this user from

There were problems with the following fields:

- Security code doesn't match confirmation

Note: The **Security Code** is only valid for a **short time**, so it is not uncommon for the registration process to take several attempts. While it is annoying, it is actually a **security feature!**

Once you have successfully registered, you will be automatically logged into Kete and can start using Kete. When you visit Kete **in the future**, you will need to **Login** to Kete - see sheet 1.2.
