

7.5 Club Newsletters in Kete

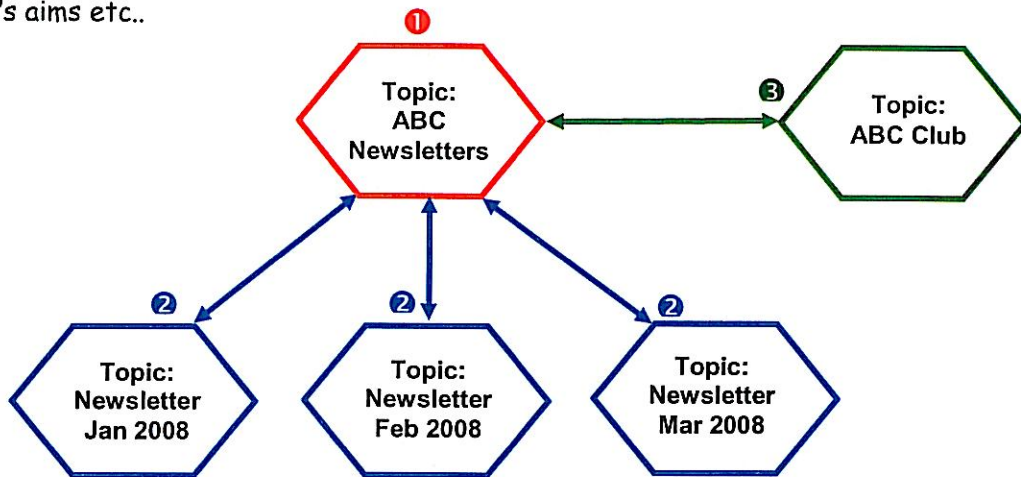

Clubs can use Kete to distribute newsletters ... The advantage of this include:

- No photocopying costs.
- No postage costs.
- Members can use the Kete **RSS feed** facility to be advised of any updates.

While you can do this in many ways, here is one such approach:

- 1 Create a **topic** for the club newsletters.
- 2 Create a **related topic** for the each newsletter.
- 3 If you like you could link the newsletter topic to a **topic for the club** and write about your club's aims etc..

Example:

- We tested this on Kete by creating a **topic for ABC Club Newsletters.**
- Then adding a **related topic** for the **ABC Club Newsletter Feb 2008**

Topic: ABC Club Newsletters

Topic Type: General

ABC Club Office Holders:

RSS Feeds:

- **RSS** stands for Really Simple Syndication.
- You can use **RSS feeds** to **monitor changes** to Kete - and in your club's newsletter topic - and be notified via the 'feed reader' of your choice (e.g. Bloglines).
- A feed reader is a web-based program that manages all of your RSS feeds so that you can read them.
- This works differently depending on the Internet browser you are using ...

To set up an RSS feed from Kete:

- 1 Do a search on the full name of the newsletter topic (*including the double quotes*).

Search: "ABC Club Newsletters" Go

- 2 Click on **RSS Feed for these items** button at bottom of the search results.
